1.1 Constraints

1. Accessing files remotely is not possible.
2. This system is not a web application.
3. Password authentication is not very strong.

1.2 Advantages

1. All operations are possible under one domain.
2. Easy access to Student and Faculty data.
3. Analytics for the performance of particular student are provided.

1.3 Disadvantages

1. Admin will have all the powers of accessing Accounts Transaction.
2. Database is not that secure.
